## EXPERIENCE

---

### Photographer

B-MAX Photo Studio

June 2024 - Present

*Embassy House, Parliament Road*

- Sharpened my editing and design skills particularly using the Adobe Photoshop and Adobe Illustrator.
- The field gives me ample time to work on my projects and offer Upwork freelancing services as I have enough time on my disposal.

### Salesperson

Netbridge Technologies Limited

Apr 2023 - August 2023

*Netbridge Ltd, Accra Road*

- Achieved a significant increase in sales by applying digital marketing methods.
- Developed an in-field understanding of Cisco devices and other networking devices.

### Technical Support, Intern

Ministry of ICT, Innovation and Technology

Apr 2022 - Sep 2022

*Teleposta Tower, Nairobi*

- Contributed in the design and deployment of the EAC Head Office LAN system.
- Assisted in the supervision of ICTA fibre manholes.

## PROJECTS

---

**Health Monitoring System.** Built a health monitoring system to search for Doctors from different hospitals, book appointment and buy medicine prescribed by using Django framework, a framework of Python Language. I submitted this project as my final University Project as part of my partial fulfillment of the Degree in Information Technology at Multimedia University.

## CERTIFICATES

---

Google UX Design Professional Certificate
